Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

Election/Restrictions

This application contains claims directed to the following seven patentably distinct species of the claimed invention:

Species A, Embodiment 1, drawn to the expansion device of figure 3 comprising a tuning device relying on thermal coefficients of expansion as described at, e.g., Specification page 14 lines 16-17.

Species B, Embodiment 1, drawn to the expansion device of figure 4 comprising a tuning device relying on thermal coefficients of expansion as described at, e.g., Specification page 14 lines 16-17.

Species C, Embodiment 1, drawn to the expansion device of figure 5 comprising a tuning device relying on thermal coefficients of expansion as described at, e.g., Specification page 14 lines 16-17.

Species D drawn to the expansion device of figure 9.

Species A, Embodiment 2, drawn to the expansion device of figure 3 comprising a tuning device relying on a coefficient of magnetic field expansion as described at, e.g., Specification page 15 lines 1-4.

Species B, Embodiment 2, drawn to the expansion device of figure 4 comprising a tuning device relying on a coefficient of magnetic field expansion as described at, e.g., Specification page 15 lines 1-4.

Species C, Embodiment 2, drawn to the expansion device of figure 5 comprising a tuning device relying on a coefficient of magnetic field expansion as described at, e.g., Specification page 15 lines 1-4.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, no claims are generic to all the claims.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Michael P. Mooney whose telephone number is 571-272-2422. The examiner can normally be reached during weekdays, M-F.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Frank G. Font can be reached on 571-272-2415. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is 571-272-1562.
